

Activity 1

Set up a mini café in your living room. Sell different items that you can find and or make. Calculate the change from £5/£10.

E.g. If this can of soup cost £1, what change would you get from £10?

Activity 2

Look around your house and garden and see if you can find at least five of these shapes. Write a list of these items or take pictures

1) Cuboid

2) Cylinder

4) See what other 2D/3D shapes you can find.

Activity 3

Bake a cake or something similar. Make sure you measure the ingredients carefully. Take a picture of what you bake.

There are some Easter treats on BBC good food.

Activity 4

Estimate the height of some items in your house and garden and then measure them. E.g. table, chair, plant. Were you close with your estimations?
