Writing a speech Activity 3

Have a go at writing your speech. You can use your sentences from yesterday to help you. Keep focused on what the speech is about – you telling everyone why you would be good at the job.

Top Tip – Make sure your speech isn't too long. You don't want to talk for so long that your audience becomes bored. 1 sheet of paper should be long enough.
Extension – could you add something into your speech to make your audience laugh?
